

Photo Collaging & Scrapbooking Tips

A white border of approximately 1/4" - 3/8" is automatically printed on all calendar pages.

11" x 8 1/2" Horizontal Rectangular Calendar Format

A single horizontal photo, (3 1/2" x 5" up to 8" x 10"), will enlarge to fit the entire page. Add a 1/4" - 3/8" colored border around collage for added interest.

Two vertical photos of the same size, taped together on the back of the photos, will enlarge to fit the entire page. Add a 1/4" - 3/8" colored border around the collage for added interest.

Four 3 1/2" x 5" or 4" x 6" horizontal photos taped together on the back of the photos, will enlarge to fit the entire page.

Make horizontal scrapbook pages for your calendar. Please **DO NOT** use liquid glue, glitter or sand in your collages!

11" x 11" Square Calendar Format

Our large square size calendar is perfect for scrapbook pages but can also be used for single photos and photo collages. Be as creative as you want, just make sure you crop it to fit a square size (no smaller than 3"x 3" and no larger than 12" x 12").

- Leave 1/2" border around edges free of design items and photos.
- If submitting square scrapbook pages please **DO NOT USE** glitter or sand in your collages as they can scratch our scanning glass.
- If you use 3-D embellishments on your scrapbook pages, it is best to use ones that are no thicker than 1/8" or they will tend to show shadows when we scan them.
- Make sure all pieces are secure so they do not fall off or move in transit to us.

Things to Avoid When Submitting Your Photos

We will print what you send us, but if you want us to enlarge your photos to fill the entire space, you must submit them in the proper orientation (larger horizontally than vertically for rectangular size calendar and the same size vertically and horizontally for the square size calendar).

Try to avoid these configurations:

DO NOT mount photo(s) on paper and leave a lot of blank space around them.

Cut the paper border to within 1/4" - 1/2" around the photo so we can enlarge them together.

DO NOT make vertical collages. Make collages horizontal (or square, when ordering the square format upgrade) instead.
